

The MØW [SPEAK] band is four creative artists: Ania Bratek (voc), Aga Derlak (p), Mateusz Szewczyk (b) and Adam Wajdzik (dr), who thanks to their talents can transfer listeners into an admirable world of music. Mixture of jazz and songwriting guarantee the recipients unforgettable moments of reflection and glancing at reality from a distance.

MØW's music is filled with emotions, not only the pleasant and joyful, but also audacious and rebellious. It's like life – multifaceted and surprising.

MØW is based in Poland, in Katowice city, launched in 2017. Since then the band played in many venues in Poland and abroad (Sweden, Slovakia, Czech, online showcase for Japan).

In 2018 MØW released first album named Stories collected under the Hevhetia, label from Slovakia. In 2021 MØW released second album (V Records, Poland), "In one room". The magic moments were caught in one room of TONN Studio under the watchful eye of talented producer Tomasz Harry Waldowski. That was also a moment when all the MØW members felt that our style was born! But it's still in progress.

All of our music is available on the streaming platforms:
